A moment of silence was observed to honor our colleagues.

V. **Special Order: Annual Promotion & Tenure Report – Provost Wickert**
Provost Wickert reported that 30 faculty were promoted to the rank of Professor and 2 faculty were not. 44 faculty were awarded the rank of Associate Professor with tenure and 3 were not. 2 faculty who were already at the rank of Associate Professor were awarded tenure. In total, 76 faculty were promoted and 5 were not. One faculty member’s tenure “clock” was extended. Provost Wickert noted that the promotion and tenure policy allows deans to decline non-mandatory cases at the college level, and doing so would keep the case from moving forward for university consideration. He observed that there were several such cases.

Provost Wickert credited the success of promotions with successful recruitment and competitive searches. The preliminary review process continues to improve in rigor and quality of feedback to candidates. The Provost’s Office has supported granting extensions to tenure clock in accordance with flexible faculty policies for issues beyond a faculty member’s control (setting up lab, care for elderly parent, birth or adoption of child, etc.). The Provost’s Office continues to promote the use of the PRS in evaluation and in dossier preparation. The Provost’s Office has overseen greater communication regarding P&T expectations. Provost Wickert also credited the new Faculty Scholars Program, the ADVANCE program and installation of equity advisors in each college, as well as the dual career program that supports partner accommodation.

Partner accommodation provides permanent funding from the Provost’s Office. Since FY01, $7.9 million has been used to support 176 couples (352 employees). The program has led to a high retention rate; only 38 of the 352 employees have left ISU.
Since 2003, 154 faculty have been granted extensions to the tenure clock (across all of
the colleges). Of those, 87 were women and 67 were men. Among those faculty who
received extensions, 36% went on to receive tenure, 39% are still pending, and 20%
resigned.

Senator Sturm asked whether the ratio of tenured to not tenured was high or low. Provost
Wickert replied that a 94% success rate is typical. The number of negative mandatory
cases is generally small.

Senator Pleasants asked what percentage of faculty hires involve accommodation.
Provost Wickert replied that he did not have numbers, but could provide next year’s FS
with such numbers. He noted that there were a lot of partner accommodation hires this
year compared to last year. He added that this year there are 100 searches.

VI. Announcements and Remarks

      The Learning Ecosystem Assessment and Review of Needs (LEARN) report will be
      available on the FS website soon.

   2. Draft of Data Classification Policy

      the policy will be solicited through October.

   3. PRS Task Force
      The joint FS and Provost’s Office Task Force on Position Responsibility Statements
      (PRSs) met on May 2. The task force will create a webpage with e-mail addresses of
      the task force members and questions for faculty input. President Dark would like to
      see a continuing discussion of PRSs at the university level. She hopes that the task
      force will have a report completed by the end of Fall 2014. Faculty may e-mail the
      task force at prstaskforce@iastate.edu.

      would have opportunities to meet with the consultants on assigned dates.

   5. UBAC

C. Provost
   1. State Support
      Provost Wickert commented that this past legislative session was the best year in a long time. The legislature approved a 4% increase in state appropriations. Funding for the biosciences facility was approved. ISU was the only public university to have a request for economic development approved.

2. BOR Task Force on Performance-Based Funding
   The task force developed a set of recommendations that will be brought to BOR at the June 5 meeting. These recommendations propose moving towards performance-based based funding. The proposed model uses full-time enrollment of Iowa residents at all ranks (undergraduate, graduate, and professional) as the primary factor (approximately 60%). Another factor is progress of students towards achieving a degree (15%), where 10% of this considers the number of students who attain degrees and 5% concerns improving access to education (where “access” to is to be understood broadly, so as to include underserved and underrepresented groups (gender, ethnicity, and socio-economic status) as well as community college relationships and transfers). Another factor is job placement (5%). The remaining 10% will include customized measures appropriate to the mission of each institution. If BOR approves the model, it would become an item for next year’s legislative session. Legislative action would be needed for it to take effect. If the legislature approves it, the model would likely take effect in FY16.

3. Congratulations
   Provost Wickert closed his remarks with a note of gratitude for the service of President Dark.
