

2018-2019 Annual Report

Research Policy and Planning Committee

Jennifer Margrett, Chair

During the fall and spring semesters, the RPP committee discussed the ISU and OVPR strategic plans as related to research planning and implementation across campus. The committee also discussed pre-award support in the context of Improved Service Delivery. Related to these issues (and in general), the committee brainstormed mechanisms to garner input, needs, and concerns from faculty across campus. In the spring, we continued discussions from the 2017-2018 RPP regarding the support for arts and humanities scholarship across campus as well as the value of interdisciplinary collaborations in the context of the ISU Center for Excellence in the Arts and Humanities (CEAH).
