

The Faculty Senate Committee on Equity, Diversity, and Inclusion spent much of its time this year on the U.S. Diversity course list assessment. Other than that we worked on suggestions for increasing diversity in the Faculty Senate. Member of the committee were active with the Vice President for Diversity and Inclusion's Council and the committee to assess applications for support in the creation of new or modification of existing U.S. Diversity courses. We met with members of the VPDI staff and even the Vice President of Student Affairs.
